

AlphaChemical®

# COMPANY PROFILE

# AlphaChemical®

For nearly 50 years Alpha Chemical Services has been a manufacturer of cleaning products. Founded as a family business in 1969 by Wayne Juckett, Alpha Chemical has built upon its founder's expertise in the food and beverage industry, and expanded manufacturing of cleaning products into other industries, such as food service, institutional, industrial, transportation and personal care. From humble beginnings, Alpha has since developed a rich history of expertise and knowledge in formulating, manufacturing and innovating products to meet customers' needs.

Alpha Chemical's manufacturing facilities are ISO 9001:2015 certified, and are registered chemical blending facilities for: EPA, NSF, Kosher, Green Seal, and Safer Choice. Private label packaging, and toll manufacturing services are available for products in liquid, powder, solid and portion control packaging. Our quality control standards and procedures can meet the strictest customer specifications.

# SERVICES

---

Alpha Chemical serves companies in multiple industries with a comprehensive suite of custom chemical services.

## ▶ **Private Label**

Extend your brand with Alpha's wide variety of product lines. One of Alpha's best features is our private label program. We manufacture liquid, powder, and solid products in sizes ranging from half ounce portion controlled packets up to bulk deliveries, and everything in between. Select a product you like from our extensive library of formulations or use your own. Alpha will manufacture, package, and label product under your brand. Beyond formulating, manufacturing and packaging, we can also assist in label design, GHS compliance, SDS creation, and other regulatory compliance issues in the context of your target market.

## ▶ **Contract Chemical Packaging**

Alpha has worked with many established brands to help manufacture their products more efficiently. Our ISO 9001:2015 certified plants are registered chemical blending and packaging facilities for: EPA, NSF, Kosher, Green Seal, and Safer Choice. Our quality control standards and procedures can meet the strictest customer specifications. The ability to meet a wide variety of product blending and filling needs make Alpha a perfect choice for your partner in contract chemical packaging.

## ▶ **Chemical Blending**

### **Liquid Blending**

Our mixing tanks range in size from 50 gallons up to 5000 gallons. We have multiple mixing tanks using load cells to accurately measure all raw materials. Alpha also has a variety of steam jacketed mixing tanks affording the capability to mix multiple phase products such as creams and lotions. In addition, all products can be manufactured using deionized water if needed.

### **Powder Blending**

Our powder blending operation is capable of blending a wide variety of products. Powders can be packaged in sizes as small as one half ounce up to 400 LB. drums. Our powder blending operation also has a dedicated area for mixing and filling solid products, specifically for the restaurant industry.

## ▶ **Portion Control Packaging**

Alpha has 40 plus years of experience providing custom plastic packaging and portion control packaged products. Our production line includes four form/ fill/seal fillers capable of filling packets as small as one half ounce up to two pounds with exceptional accuracy. We have the capability to fill powders, liquids and pieces in portion control packaging. We offer relatively low minimum quantities for private label packaging.

## ▶ **Custom Formulation**

Whether you need help formulating a new product or want to improve an existing product, Alpha can help. Our team of chemists have over a 100 years of combined experience in chemical formulation. We've developed products for customers ranging from Fortune 500 companies to contestants on ABC's Shark Tank.

## ▶ **Bulk Chemical Delivery**

From totes to tankers Alpha can deliver it. Our experienced regulatory team can help you navigate the regulatory and compliance issues associated with bulk chemical shipments. Bulk delivery is available for all formulations including HAZMAT and DOT regulated materials.

**We are well versed in tailoring our offerings to a wide range of industries.**

With each passing year, we expand our product lines, service offerings and capabilities in order to better serve the differing needs and specific requirements of distributors and service companies of all sizes.

# INDUSTRIES

At Alpha, we believe that the measure of a reliable chemical company is its ability to serve a wide range of industries with the highest quality products and services. From custom chemical formulations to private label packaging and even bulk chemical delivery, we will stop at nothing to meet the unique needs of our valued clients, no matter what industry they're in!

**Retail**

Bring your product to market. We'll help get you the product you want.

**Food & Beverage**

Alpha manufactures cleaning and sanitizing products for facilities processing a wide variety of food and beverages: bakeries, beef, beverage, brewery, dairy, pork, poultry, produce, ready-to-eat, seafood and winery markets.

**Food Service**

All products used in the cleaning and sanitizing of kitchens in restaurants, cafeterias, cafés, and other food service environments.

**Green Cleaning**

Environmentally preferred cleaning solutions for industrial, institutional and retail markets.

**Industrial**

High-performance cleaning solutions to meet the tough challenges of industry. Products for heavy-duty cleaning, degreasing, descaling and washing to keep facilities clean and grime-free.

**Facility Maintenance**

Professional cleaning solutions for all custodial needs. Products available either as a concentrate or ready-to-use formulation.

**Laundry**

We offer a complete line of commercial laundry products and can custom blend unique formulations. Our wide range of batching capability allows us to supply any size you need from pails to bulk shipments.

**Personal Care**

We adhere to FDA cosmetic guidelines and can fill a wide variety of sizes to meet your needs. We can also offer formulation assistance when needed.

**Vehicle Care**

Car wash products to clean the interior and exterior of vehicles. Industrial strength products available to clean trucks, buses, locomotives and fleets.

# PRODUCTS

---

Giorgio,

I listed off product categories under each market below. Each product category expands into multiple products. Feel free to ask for additional information about any product categories that interest you, and I can gather additional information about the variety of products offered.

The markets and product categories listed below are based off our conversation the other day, and are my interpretation of products someone may buy through Amazon. However, my estimation is likely off to some degree. If you discover another product viable to sell on Amazon that's not listed below, feel free to reach out--we may already manufacture it.

After identifying products of interest we can explore color, fragrance packaging, and so on.

## Bathroom
